

CIRCULAR CLEANING

HEALTHY + CLEAN WORK ENVIRONMENT AND SOCIETY

We live in a consumption society. We use natural materials for the manufacture of products which eventually end up as waste. This results in a scarcity of raw materials on the one hand and an enormous amount of waste on the other. Greenspeed wants to break through this current paradigm by applying circular cleaning. In short, we are making the transition from a linear model to a circular one. How do we achieve this?

CRADLE TO CRADLE DETERGENTS

OUR DETERGENTS :

- RENEWABLE INGREDIENTS FROM **ORGANIC** ORIGINS
- NO TOXIC CHEMICALS

BIODEGRADABLE
DETERGENTS
= **MINIMAL IMPACT**
ON AQUATIC LIFE

MINIMUM WASTE:

- PACKAGING: 100 % **RECYCLABLE**
- CONCENTRATED FORMULAS: DOSE 10 ML/5 L INSTEAD OF 20 ML/5 L¹ = **MORE THAN 20 % LESS PACKAGING WASTE**

PRODUCTION:
RENEWABLE
ENERGY AND
RESPONSIBLE
WATER USE IN
THE ECOLOGICAL
FACTORY

POWERFUL CLEANING AGENTS FOR
INDUSTRIAL AND PROFESSIONAL
ENVIRONMENTS:

- **HYGIENICALLY CLEAN**
- **USER-FRIENDLY**
- **HANDY COLOUR CODE**

PACKAGING:
PLANTPLASTIC +
25 % RECYCLED
PLASTIC

MICROFIBRE PRODUCTS

SPRAY METHOD +
MICROFIBRE PRODUCTS
= **ECOLOGICAL CLEANING**
METHOD: YOU SAVE DETERGENT
AND WATER

EFFICIENCY ADVANTAGE:

- REMOVE STAINS **3X FASTER**²
- LIGHT PRODUCTS + EASY TO HOLD = FAST AND **COMFORTABLE**
- **HANDY COLOUR CODE**

RE-USE MICROFIBRE
PRODUCTS:
**RETENTION OF
QUALITY AND
SHAPE**

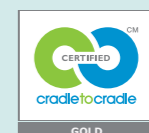

2X MORE WASHABLE...³

- WHEN USING APPROPRIATE **LAUNDRY DETERGENT AND WASHING CYCLE**
- WASH WITH A **C2C DETERGENT (WASH LIQUID)** TO CLOSE THE CIRCLE

OUR PRODUCTS MEET THE
HIGHEST CERTIFICATION STANDARDS

(1) standard dosage: 20 ml/5 l H₂O (2) compared with a conventional cloth with detergent (results: TNO research) (3) than the average microfibre cloth on the market
